Projects

- **Swift CSS Framework**
A modern light-weight CSS framework tailored to make front- end web development with CSS & JS hassle-free. It is composed of several pre-styled web components such as breadcrumbs, navbar (horizontal and vertical mobile menu enabled), form inputs, buttons, tabbed panels, widgets, collapsible panel, spinners, table, hero image setting, list group, pagination, search toggles.

- **Web-Based Ecommerce App**
A web-based dynamic e-commerce app with a CMS (Content Management System) where the site owner can upload, edit or delete store products, set store logo, store icon, store appearance, slideshows, page adverts, coupons, services, new pages and so on. The e-commerce site also has packages like a digital invoicing system and an automated mailing system. It comes in various themes.
